AN INTERESTING LETTER is published in the Medico-Chirurgical Review, on the subject of the extract of Sarsaparilla in venereal affections, by Benjamin Travers, F. R. S., etc. Speaking or Syphilis, and diseases arising from the excess of mercury, he states. "That no remeay is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug lam acquaintea with. It is in the strictest sense a tonic, with this invaluable aitribute that it is applicable to a state of the system so sinken and yet so irritable as renders other substances of the tonic class unavailable or insurance."

TWO TABLESPOONSFUL of the Extract of Sarsaralla, added to a pint of water, is equal to the Lisbon
Diet Drink, and one bottle is equal to a gallon of the
Syrup of Sarsaparida, or the decoction as usually made.
The decoction is exceeding troublesome, as it is necessary to prepare it fresh every day, and the syrup is still
more objectionable, as it is weaker than the decoction;
or a fluid saturated with sugar is susceptible of holding
in solution much less extractive matter than water
alone, and the syrup is otherwise objectionable for the
patient is frequently nauscated, and his stomach surfeited, by the large proportion of sugar he is obliged to
take with each dose of Sarsaparilla and which is of no
use whatever, except to keep the decoction from spoilting. Here the advantages and superiority of the Fulid
Extract in a comparative view are strikingly manifest.

THE LATE REVOLUTIONARY DEMONSTRATION. Havana, March 10.—The Saqua newspaper of the 5th inst. publishes the following regarding the late outbreak at Villa Clara, which I trans-

Our meritorious civil guard has just rendered an important service. It appears that a band of highwaymen, consisting of some fourteen or sixteen foolhardy individuals, armed with cutlasses, knives, and muskets, attempted a rising at Villa Clara, or some point in that district. Their intention apparently was to get up a sort of marauding expedition, and their suspicious proceedings created considerable alarm in that peaceful section of the island. They first made their appearance in the Calabazal district; but information of their arrival baving been re-ceived by Don Jose Hernandez Galvez, commanding the civil guard in that district, he immediately started in search of them with a por-tion of his force, and, supported by the lieu-tenant commanding at Cientuentes, he came across them at a point called Taguayabon, in the district of San Juan de los Remedios.

Some shots were exchanged, and, finally, the civil forces succeeded in capturing twelve of the insurgents, among whom were Don Ventura, Rosell, Andres Lopez, Maximo Guerra, Antonio Rodrigues, and Augustin Millan. They were taken to Remedios and duly delivered to the custody of the civil authorities to await trial. The parties implicated are stated to belong to the respectable class of society. Villa Clara, where the demonstration took its rise, is a town of considerable importance on the north side of Cuba, distant about sixty leagues from Hayana, Its situation is favorable for a revolutionary movement, as the eastern portion of the fsland is the most mountainous and the most disaffected, being inhabited by a manly class of countrymen, termed greatiros.

ANOTHER ACCOUNT.

From the Prensa of March 7. The report which we copied yesterday from the Eagua, regarding the capture of a number of individuals suspected of being about to get up a maranding expedition, turns out to have been greatly exaggerated. The truth of the matter, as we have learned from sources worthy of credit, is as follows:—Some dozen or more individuals were drinking togetaer in a tavern (bodega), when one of them, being excited by his potations, expressed himself in violent terms against the Government, and a lieutenant from Taguayabon, who was present, rebuked the man, and, fearing that the dispute might end in violence, the civil guard were notified, who, meeting two of the party coming out of the tavern, arrested them for carrying arms without authorization, and after inquiring the names of the others, they arrested them also, and San Juan de los Remedios. Upon investigation it appears that the man whom the lieutenant had reproved is addicted to drunkenness, and in the habit of talking wild when under the influence of liquor, and that the others belong to the respectable class of society, having never offend

ed against the laws. THE CARGO OF APRICANS. The Spanish war steamer Neptune arrived here this morning (as I stated in my letter forwarded by the Moro Casde), having in tow a coasting schooner with a considerable number of Afri-cans on board. It is reported that the blacks were transferred from a brig which landed seven hundred of them at San Antonio. The owner not appearing they were purchased by Senor Marty at the rate of fifteen ounces (\$225) The total number of Africans taken by

five hundred souls. The British steamer Bolivian appeared off the port the evening before last, from New Orleans, and the Captain not understanding the signals from to Morro fortress "not to enter at night," was fired at with blank cartridge and had to wait till next morning.

the Neptune is estimated at nearly one thousand

SUBMARINE TELEGRAPH TO THE UNITED STATES AND MEXICO. Late papers from the United States say that an American company has obtained from the State of Florida the right to land and extend telegraphic cables from the shores of that State to tae island of Cuba and the Bahamas. This com-pany is probably not aware that by a royal deeree, Madrid, June 30, 1865, the exclusive right to land telegraphic cables on the coast of Cuba was conceded to a Spanish company, organized under the Marquis Marianao, Count San Este-ban, Don Arturo de Marcoartu, and other dis-tinguished capitalists, for the purpose of con-necting the "ever faithful island" with Mexico and the United States.

THE CIGAR TRADE. An exposure was made some time ago by the European press, denouncing the ingenious frauds committed in Germany and elsewhere, to the great injury of the genuine article, both in spurious manufactures and in the exportation of

cigars for reimportation. A number of our manufacturers lately held a meeting to devise the best means to put a stop to the practice. One of the remedies proposed was to establish a newspaper, exclusively in defense of their interests. The idea of having a newspaper is not a new one, as the Homadez Cigarette Manufactory has had one for some time, under the direction of the proprietor

THE ARGUELLES CASE.

Your readers may recollect that against the sentence passed on Arguelles last year he made an appeal to the Supreme Court of Spain, which is still pending. It is said that he forwarded "certain documents" home with a view to im-plicate others and to vindicate himself in that business to which he owes his diagrace; but what is certain is that he is still an inmate of the Havans "Tombs," or Carcel Publica. He seems to be badly provided for in a pecaniary view, as he sent the other day to get some money from a "friend .- N. Y. Heralda

The result was that the students refused to attend the balls at the Museum Club. 10,000 MEN COMING FROM ENGLAND.

The British West India Squadron Ordered to Halifax.

LULL IN THE EXCITEMENT.

MONTREAL, March 16 .- [Special to the New York World.]-The Government has received a letter from an official in Windsor, Canada West, stating that the Mayor of Detroit informed him that he caused inquiry to be made into the extent of the Fenian movements in that city, and discovered that there was a likelihood of an attack from that point. The Government was also notified that the American Government is sending troops to Buffalo to prevent any attack from that quarter.

The Six Nations Indians (Troquois) colonized on the Ottawa river, under a descendant of the celebrated Brunot, last evening tendered the services of five hundred of their braves to the

I am informed by an officer of the Royal Engineers that orders were sent to England, five weeks since, for ten thousand troops to be landed at Halifax, who will march from thence to New Brunswick, where the vulnerable point was supposed to be. These troops are expected in ten days, and on their arrival New Brunswick, it is considered, will be safe.

The ships-of-war Ariadne and Pylades are now in the Bay of Fundy.

Sir Frederick Bruce has ordered the West Indian Squadron to sail immediately to Halifax, with all the disposable troops in the West Indies.

The excitement here is very much abated. New York, March 17.—The new Fenian flag is white harp on a green field, thirteen internal stripes, seven red and six white. The difference between the Fenian flag and the United States flag consists in substituting in the former a harp for the thirty-six stars, and a green for the blue

REPORTS FROM TORONTO.

TOBONTO, March 16 .- The announcement that Secretary Seward promises the British Minister to permit no violation of neutrality by the Fenians causes much rejoicing, and the report that the Unite! States Government is seading roops to the American frontier is believed to be evidence of her intention to prevent raids upon a friendly power.

Notwithstanding the St. Patrick's Society has decided to make no demonstration to morrow, about one thousand Hibernians will turn out unarmed, and it is believed that peace will be preserved. A volunteer arrested yesterday for hreatening to fire into the procession tomorrow is to be court-martialled to-day.

The Watchman announces the intention of the Government to suppress Irish Canadian newspa-pers for alleged disloyal utterances. Volunteering is going on with spirit. The railway offi-cials still observe all precautions for the safety of their rolling stock. The Watchman asserts tnat the Hibernian societies will walk to-morrow with banners bearing objectionable language. It calls upon Mr. Murphy to throw out these banners from the procession, and warns him if it is not done it will take General Sweeney and his great regiment of Fenians to "save the

The British Spies in New York. STARTLING PROGRAMME OF THEIR OPERATIONS.

THEIR PLANS AND MEETING PLACE—WHY TH DON'T REPORT AT THE ENGLISH CONSULATE. Some months since, when the British Govern-

ment first ascertained the magnitude of the Fenian organization, a corps of English spies were sent to the United States to place the leaders of the organization under surveilance, in order to obtain such information as might lead to the conviction of their brothers in Ire-land. This mission had the effect desired; for some of the detectives who came over here were thus enabled to give evidence against the Irish State prisoners which sent them to penal servitude in British convict ships.

The presence of this corps of detectives having been too well known to the Fenians to render their operations safe or satisfactory, they were relieved by another who still remains in this city. The old corps reported for duty to Mr. Archibald, the British consulate, and this fact was officially elicited at the threats of the Fenian prisoners in Dublin. The Head Centre and Mr. Killian, however, checkmated their efforts by having them tracked to Mr. Archibald's office and by sending descriptions of each to the circles in this and other cities.

The spies used to follow Colonel O'Mahony, Mr. Killian, and all the Fenians whom they deemed sufficiently prominent, through the city, in order to glean information of their movements. They assembled in groups at Union Square for this purpose; but having been warned and made aware of their danger, they gathered subsequently at a distance from the O'Mahony headquarters.

in order to operate more successfully, they changed their headquarters from the British Consulate to certain rooms located in one of the large rooms in Nassau near John street. The rooms were taken ostensibly for a purpose different to that for which they are used, and the reputed owner is said to be the agent who turnishes the reports of all operations of the spies to the Consulate. They were present at the meeting is Clinton Hall last night. Their new meeting place, however, was made known to the Head Centre, and their movements are

strictly watched. They have been amply provided with money, which they spend freely. Last week their ranks were increased by a British emissary from Dublin, who, with a large amount at his dispesal, declares his intention to create, if possible, a counter movement in the United State, in favor of Queen Victoria and the British Government. This man, whose name is omitted, was connected with riots in Ireland, involving bloodshed and religious discord for thirty years. His name, if mentioned, would be unpleasantly familiar to Celts all over the globe.—N. Y. World.

opportunity to reach its destination. A Card from a North Carolina Senator Elect

Hon. William A. Graham, Senator elect from North Carolina, publishes a statement, from which it appears that in January he addressed a letter to Senator Fessenden, suggesting that it would be but justice to permit the delegation elected from each State to be present at the reception of all evidence touching such a State or any of its members before the Committee on Reconstruction, with the privilege of cross-examination of witnesses, and of introducing counter evidence if they shall deem it proper; to which Senator Fessenden replied :- "Dear Sir-It is not custo mary to allow a cross-examination of witnesses before a committee appointed to report on a subject not involving individuals."

The committee is supposed to be desirous to ascertain the truth, and capable of making all the examinations necessary.

The Committee is quite willing, however, to examine any witnesses who may be produced, having a knowledge of the subject-matter to any reasonable extent. The credentials of gentlemen claiming to be Senators have not been referred to this Committee, and there is no probability that they will be.

Mr. Graham subsequently replied:-"My real purpose is to aid the committee, so far as this State is concerned, in ascertaining the truth and to guard against ex parts testimony from unknown or irresponsible sources.

"If, therefore, the committee will at any time furnish notice of the points in which evidence is desired, or of the prejudicial testimony which it is necessary to meet, my colleagues and myself will gladly avail ourselves of its permission to offer suchfrelevant proof as may be in our power."

Lecture by Rev. Dr. Butler - This gentleman will deliver a lecture at the Green Street M. E. Church, on Tuesday evening next, on the Sepey Rebellion.
All who heard the Lecture when given here in January, speak of it in the highest terms—it abounds in wit, humor, pathos, and thrilling meldent.

General Religious Intelligence.

Tabernacic Baptist Church, West Chesnut street.—An interesting and numerous Society connected with this church, called the "Young People's Association," will hold its anniversary meeting on Tuesday evening next, when the report of the Society will be read by the Secretary, and addresses may be expected from the Roy. C. A. Peltz, Rev. J. Hyatt bmith, Rev. Dr. Beadle.

PRESBYTERIAN. Interesting Discourses.—The Rev. James Crowell, D. D., Paster of the Seventh Preseyterian Church, on Broad street, above Chesnut, will preach the first of several sermons on the parable of "The Ten Virgins" to-morrow afternoon at a o'clock,

New Church Building.—The Alexander Presbyterian Church, Rev. T. M. Cunningham, Pastor, is about to begin the erection of a new and handsome church building on the lot adjoining the lecture-room, which was built some years ago. The contract is concluded, the work will be commenced immediately, and the congregation hope to worship in their new church some time in the early part of next year. The church has grown steadily for the last few years; its prospects are new very encouraging, and we believe that when it enters its new edifice it will speedily grow into one of the largest and most prespercus churches in the city of Philadelphia.

EFIECOPAL.

EPISCOPAL. Easter Cel. bration.—On Sunday, April 1st, the Sunday Schools of "Gieria Dei" Church will have a grand Easter celebration. During the afternoom a number of hymns will be sung by the scholars, numbering over three hunared. Addresses will be made by the Rector, Rev. J.
